

DIRECTORY OF INTERCONNECTION TECHNOLOGIES AND EQUIPMENT

PUBLICATION ORDER FORM

There is an increasing amount of attention devoted to the interconnection of distributed generation (DG) equipment to the grid. This increased interest is largely attributed to the attractive opportunities to reduce energy costs and to improve the value of both existing and planned DG interconnection applications.

Currently, industry is mitigating the barriers to interconnection of DG. Later this year the IEEE is expected to publish IEEE/ANSI 1547, *Standard for Interconnecting Distributed Resources with Electric Power Systems*. This standard will play a large role in removing both cost and technical barriers to installing new or modifying existing DG applications.

Faced with fewer barriers to the interconnection, engineers, planners, and plant managers may soon view DG opportunities to be attractive that were previously considered unfeasible. By listing the equipment and the technologies necessary to interconnect all kinds of DG applications, the DG Monitor's *Directory Of Interconnection Technologies And Equipment* helps these decision-makers quickly develop a short list of potential interconnection solutions. It also provides contact information for manufacturers and distributors who can help the decision-maker determine the best interconnection solution for a particular application. Consequently, this Directory can be a valuable tool, especially for professionals who are just becoming familiar with interconnection solutions. The directory is available for \$165, or for \$140 for orders of 2 or more.

Please send me a copy of *The DG Monitor Directory Of Interconnection Technologies And Equipment*.

Name: _____

Title: _____

Organization: _____

Address: _____

City/State/Zip: _____

Phone: _____ Fax: _____ e-mail: _____

Price: US\$165 for one, US\$140 for 2 or more (shipping and handling included)

Price: US\$ _____ x Number of Copies: _____ = Total: US\$ _____

Check enclosed (payable to "Resource Dynamics Corporation")

Credit card payment: Master Card Visa Discover American Express

Card Number: _____ Expiration date: _____

Name as on card: _____

Signature: _____

Fax or Mail to:
